Product End of Sale and End of Support Notice

Date: 10/16/2023   Notice Number: 20231016

Dear valued customer,

Earlier in 2023 Ciena completed a purchase of TiBit, with this purchase Ciena now holds a controlling interest in TiBit and has changed the way they go to market and support the product. This change has created a situation that is favorable for the customer but not for Legrand. As such, we find ourselves in a position that we will no longer be selling or supporting TiBit and related PON products. Ciena has already reached out to customers to transition the legacy TiBit web portal credentials to a Ciena controlled and credentialed web portal. As Approved Networks/Champion ONE/Legrand work through this change we will be transitioning all TiBit operations, support, and maintenance to Ciena.

Effective **10/16/2023**, Approved Networks will no longer be selling TiBit and related products. All warranty, technical support, and engineering support for TiBit/Ciena's products will be handled by Ciena. All warranty, technical support, and engineering support for the following ONU products will be handled by Azores Networks. Approved Networks will assist in the interim period to ensure a smooth transition to Ciena.

We value the partnerships that we have created and wish you the best going forward. Here we announce the End of Sale and End of Service dates for the following products.

C1 Part Number	End of Sales Date	End of Service Date	Category
C1-TXM-MPOLT-01C	10/16/2023	10/31/2023	Transceiver
